

WHO AM I?

I am an Italian Senior Software Engineer, with a sound background in Mathematical Physics, and worked in several fields before moving to the Netherlands on 6th of April 2022.

My colleagues would describe me as a serious professional, strongly driven and project oriented.

With a lot to learn, I find interesting and challenging to grow both with junior and more experienced Engineers, able to focus on solitary projects as well.

Bash	
C / C++	
Python	
Jenkins	
Git	
UML	

EXPERIENCE

2024	Senior Software Engineer I am working on a project at ASML as part of a team dedicated to the implementation from scratch of a new light system for the lithography systems . C/C++/Python/Bash / Software Design/Development/Testing / Agile	Team Expat
2022 – 2023	Senior Software Engineer I was assigned to ASML as part of an out-farmed team dedicated to the Safety and Diagnostic of the lithography systems . My main contribution was helping the team robustness , implementing, testing and integrating both new and legacy code , integrating CI/CD in collaboration with the local T&I team and writing part of the software design for the High-NA EUV machine . C/C++/Python/Bash / Software Design/Development/Testing / Agile	TOPIC Embedded Systems.
2018 – 2021	Senior Software Engineer I worked for the fintech startup ProMarket, developing in Python and in C++ a networking framework between the investment clients and the strategy-computing servers on top of the ZeroMQ library. I also developed in Python part of a sentiment analysis engine . C/C++/Python/Bash / Networking/ZMQ / Machine Learning	ProMarket
2015 – 2018	Software Developer I worked for Eveilidia, an IT company. My job was the debugging and maintaining of an on-demand book-publisher websites' back-end running on Linux Fedora. Bash/Python / Fedora Linux / Web Services	Eveilidia
2012 – 2013 freelance	Developer and Tester I proposed the idea and took part in the development of a command line parser , a C version of the Python argparse module . It is available for free download and use on GitHub: Vincenzo1968/myoptParser Python / C / Bash / FOSS / Remote Colab	Ubuntu Italian Community Forum
2010 – 2012	PHP - MySQL Developer For SirCup, a company which organizes sport tournaments, I developed and maintained MySQL databases and relative data-handling and presentation PHP routines , specifically for their soccer tournaments. PHP / MySQL / data-handling	SirCup

Miscellanea

After I won a scholarship, I worked for a year as a [librarian](#) in Roma 3 University library.
I've been [tutoring students in mathematics and physics](#) for several years, preparing them for any grade level, especially from high school to university.
I worked for a couple of years at Chiostro del Bramante, a museum in Roma, [keeping watch on artworks](#) during exhibitions.

EDUCATION

Master's Degree in Mathematical Physics - 110/110 cum Laude

Universita' Roma Tre

My research work investigates the [relaxation to the equilibrium](#) of a [supersaturated gas](#) through a [critical droplet](#) which triggers the [phase transition](#) into liquid.

After writing down both a stochastic and a deterministic [mathematical model](#) of this metastable thermodynamic system, I wrote the [C++ simulations](#), run them and carried out a massive [data analysis in Python](#) finding out interesting results in the context of [Non-Equilibrium Statistical Mechanics](#).

Bachelor's Degree in Physics

Universita' Roma Tre

High School

Pio IX

Humanities-focused Catholic highschool run by Benedictines Monks.

LANGUAGES

Italian native
English C1 - Academic IELTS
Dutch Self Studying

HOBBIES

I love Art, open air activities like horse riding and hiking, cooking and reading when home.

NON PROFIT

I try to be a better version of me every day, working in charities and being open mostly.
